

Bedazzle Beads

Project 2 - Memory Wire Bracelets

Components:

- 4 Coils of Bracelet Memory Wire
- 5 Grams of Seed Beads
- 8x 6mm Round Beads
- 8x 8mm Round Beads
- 2 Charms of Your Choice
- 2x 6mm Jump Rings

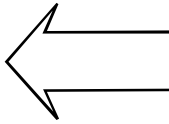

Tools Required:
Round Nose Pliers
Flat Nose Pliers

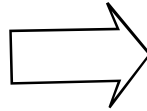

Step 1: At the end of the memory wire coil, turn a loop back on itself, to keep the beads from falling off. Then close with the flat nose pliers

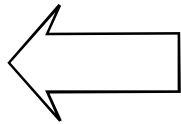

Step 2: Start the bracelet by placing a 6mm bead onto the coil followed by 10 seed beads.

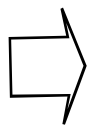

Step 3: Then an 8mm bead followed by 10 seed beads

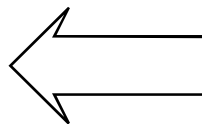

Step 4: Then a 6mm bead, followed by 7 seed beads. (Follow the sequence again from step 2, until there is approximately 1cm left at the end of the bracelet). TIP: By threading in this way, the large beads should not collide on the the coil of the bracelet and make an attractive pattern.

Step 5: Once you reach the end of the bracelet, you again, need to turn another loop to finish the bracelet off, as in step 1

Step 6: Using your 6mm jumprings, add a charm to the start and end to complete your memory wire bracelet

Here are some finished design ideas to try ...
